

Parking

Parking lots and garages there are many cars pulling into spaces, backing out, loading and unloading, and pedestrians crossing. Be on your guard and take your time in order to help avoid parking lot accidents.

Precautions that are required to avoid parking accidents:

4. Drivers need to judge whether the vehicle is going to fit.
5. Do not speed into parking spaces
6. Pull out of your parking spot slowly.

Prevention of parking accidents is what it's about, so Make sure it fits, Don't speed and Pull out slowly.
